Reference Letter for Surajit Dhar (IC : S2678314C)

Surajit conducted a contextualised training on "Implement Lean 6 Sigma" for our organisation, Baumann Spring Co (S) Pte Ltd over 4 days from 23 Apr to 21 May (36 hours).

By our request, Surajit focussed much on the use of VSM (Value Stream Mapping) with weekly group activities for our internal teams on pre-selected projects.

Working with us, Surajit initiated and was involved in many discussions to ensure that the course was kept on track to our peculiar needs, sometimes making changes to his presentation materials just before the training session itself. He took particular attention to ensuring that people were well aware of the important points.

He also provided us an added bonus of Lean Six Sigma Yellow Belt training with an assessment test. Surajit also provided us with many examples of his own work experience as a Lean Consultant making the learning more meaningful.

Overall, our staff were very praiseful of Surajit and he received good ratings as a trainer in their feedback forms.

We strongly recommend Surajit Dhar as a trainer especially for those Companies who would like to embark on the productivity journey for better operational efficiency through lean six sigma approach.

Yours Sincerely,

Name : Stephen Wee
Designation : Project Manager
Baumann Spring Co (S) Pte Ltd
